

### DESCRIPTION and USES

**Port City Topside Marine Enamel** is a high-gloss urethane alkyd designed to provide boats and watercraft superior adhesion, water resistance, and exceptional abrasion protection. With excellent color and gloss retention, it ensures a durable finish. Formulated to flow and self-level effortlessly, it creates a smooth, professional-grade coating, making it ideal for use on all wood, metal, and fiberglass surfaces above the waterline. **NOT INTENDED FOR ARCHITECTURAL USE.**

### PREPARATION

**Surface Preparation:** All surfaces must be dry and free of dirt, grease, rust and loose paint. Rough surfaces should be smoothed with sandpaper. Glossy surfaces must be sanded to remove the gloss and wiped clean. Patch all holes and cracks with suitable materials prior to painting.

### APPLICATION

Stir thoroughly before and occasionally during use. Apply with a brush or roller making sure all areas, especially edges, are well coated. Maintain a wet edge during application to avoid lap lines. Avoid application, if possible, when temperatures are above 90°F or below 50°F or when relative humidity is above 85%.

### CLEAN UP

Clean painting tools immediately after use with specified clean up solvent. Use same clean up solvent to clean dried product off equipment.

### COLORS

Available in Bright White, Signal Red, Flag Blue, Hacker Green, and Black.

### REGULATORY INFORMATION

For complete safety information, refer to the SAFETY DATA SHEET for this product.

### TECHNICAL DATA

<b>Finish:</b>	Gloss
